

Sprint 9 - Meeting I

20 November 2023 / 9:30 pm

Attendees

Maneesh, Sarah, Fee Kim, Emily

Agenda

- Understand and walkthrough the sprint document
- Add weighting to issues
- Brainstorming improvements to work on for the sprint
- Figure out who would like to take on which tasks
- Pick out times of availability for future sprints of the week

Notes

- Emily - assigned to sprint lead
 - Will take up documentation, demo slides, task organization, and implementing accessibility features in development
 - Brainstormed application improvement tasks for the team
- Maneesh
 - Will be implementing a CI/CD pipeline for an automated development environment using gitlab
 - Will be implementing current selenium test cases into the CI/CD pipeline.
- Sara
 - Will be working on cleaning up the UX/UI of the website
 - Ensure the front-end of the application is consistent, clear and easy to use throughout
 - Improving API documentation to match the site's UI look.
- Fee
 - Will be implementing night mode throughout the website
 - Implementing the option to delete an inputted course instead of clearing all inputs.
- Simardeep
 - Will be adding more selenium test cases for the newly added functionalities
 - More robust test cases for the prerequisite recommendations

Next Meeting's Agenda

- Check up with Simardeep to ensure that he likes the task and if he would like to switch
- Regroup to check on sprint and task progress with everyone
- Resolve any open problems or discussions.
